Yiwu Kebon Medical Supplies Co., Ltd. began to produce and sell first aid kits in 2016. Our office is set up in Yiwu, the International Commodity City, and the factory is in Dongyang City, which is half an hour's drive from Yiwu. The reason why the office is set up in Yiwu is that the information is faster, there are more high-end talents, and the product design and research and development are more convenient. The factory is set up in Dongyang mainly considering the advantages of labor and site costs, and on this basis, the transportation is also very convenient.

As a manufacturer specializing in the production of first aid kits, we want our products to be reliable and trustworthy. The first aid kit is a very special product. No one knows when they are injured. Keep a first aid kit around so that they can be ready at any time. We hope our products can help users at critical times. This is our goal, and we will continue to work hard for it.

Outdoor First Aid Kit

Pets are our forever friends, they can bring us joy and accompany us through unforgettable time after time. Whether it's at home, hiking, or camping, always keep a set of pet first aid kits, which can treat some common pet health problems, such as broken nails, sprains, cuts, porcupine thorns, etc., and create a safe, reliable and healthy environment for pets.

Army first aid kit

IFAK is a trauma kit containing basic life saving materials, bleeding control and primary wound treatment. Tactical IFAK components include tourniquets, chest seals, Israeli bandages, combat gauze and other hemostatic agents. It is suitable for first aid on the battlefield, and can also be used for emergency first aid in outdoor adventures, camping and other emergencies. Meet all the needs of professional military use or military fans.
